protecting your interior

Hospitals, Clinics,
 Nursing homes
 Kindergartens, Education,
 Transport interchanges,
 Hotels, Fitness centres,
 Canteens, Restaurants,
 Retail outlets
 Pharmaceutical and
 Cosmetic Industries, etc.

Interior design can influence the mood and behaviour of the building's inhabitants, that is why C/S France developed a selection of colour schemes.

C/S Acrovyn® products help to personalise the interiors to create a soothing or for dynamic atmosphere.

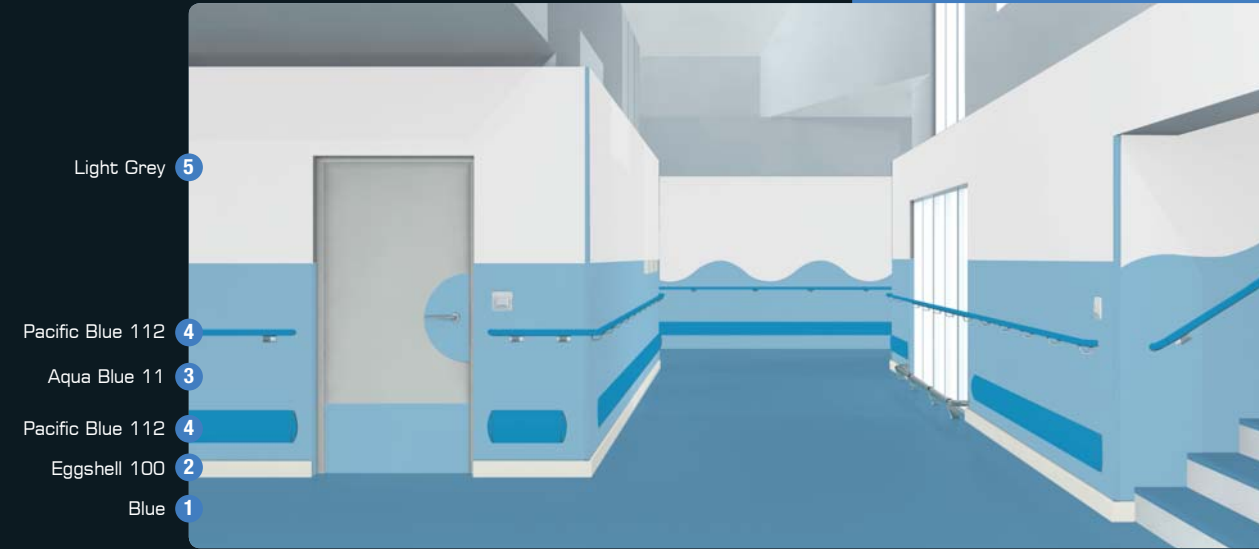

Through their colours and shapes, C/S Acrovyn® products complement design schemes and help create visually pleasing interiors. Handrails can also be used as mobility aids providing support with enhanced comfort and safety.

For warm, comfortable, relaxing and pleasant living ambiances, C/S France suggest a wide choice of colours which are inspired by nature : a palette of volcanic, botanic, oceanic and solar shades. Soft colours with low contrasts create peaceful environments, where well-being and aesthetics are primary considerations.

For busy interiors with frequent movement of people and objects, C/S France recommend more dynamic, saturated and bright colours. They allow a better orientation within the building by creating a visual difference between floor levels and providing guidance throughout the building.

The OCEANIC SHADES

Azores

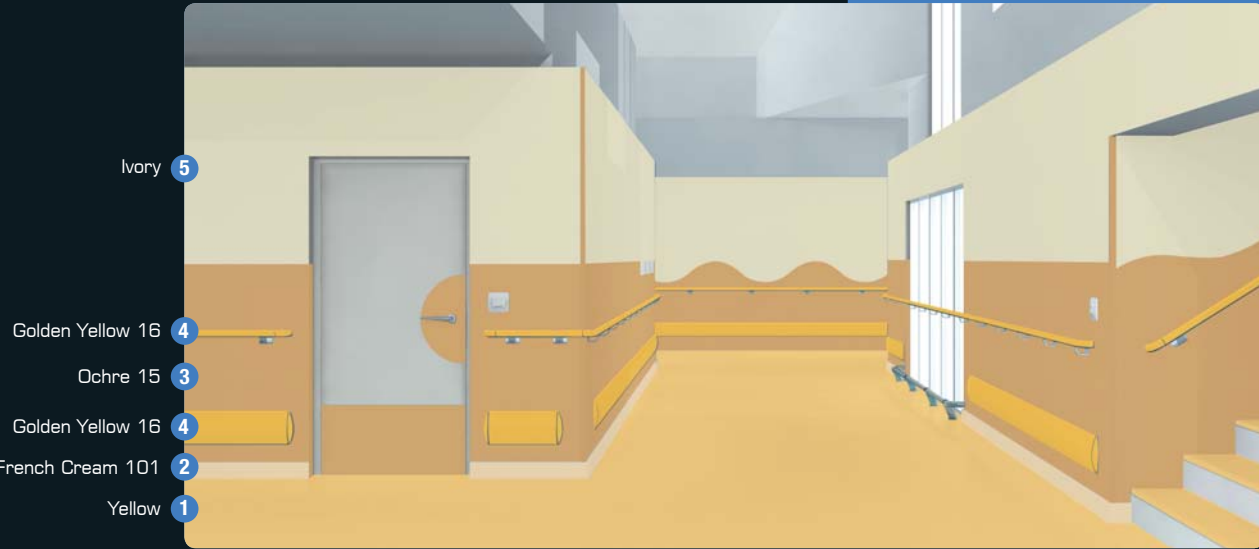

- Light Grey 5
- Pacific Blue 112 4
- Aqua Blue 11 3
- Pacific Blue 112 4
